(54) Title: A DISPENSER

(57) Abstract: A hand-held dispenser (1) for dispensing a multiplicity of unit products (3) having a storage area (100) for storing the unit products, an outlet opening (311) through which the unit products are dispensable from the dispenser and a dispensing mechanism (350) adapted to dispense a predetermined number of said unit products through the outlet opening per actuation thereof. The dispenser is adapted such that the dispensing mechanism is actuable by pushing the dispenser into a palm of a user and such that the associated predetermined number of unit products is dispensed into that palm.
